

Potentilla, Gold Drop

Potentilla fruticosa 'Gold Drop'

Type	Deciduous Shrub
Exposure	Full - Partial Sun
Height	2'-3'
Spread	3'
Foliage	Green

Gold Drop Potentilla is a deciduous shrub that does best in full sun and will flower all summer if trimmed in late June or July along with fertilizer and water. The flowers are borne atop the tips of the new growth. It is best to thin this plant in late winter by cutting back about one third of the stems near the ground (older stems only).
